

Product Description

Classification: Carbonate
Type: Sodium Bicarbonate CAS No.: 144-55-8
Other Names: Soda bicarbonate
Grade Standard: Food Grade Purity: 99% Min
Purity: 99%min

Introduction:

White powder or tiny crystals, nodorousand salty, easily soluble in Water, insoluble in alcohol, presenting slightly alkalinity, decomposed when Heating. Decomposed slowly when exposd to moist air.

Assay: 99% Min

Packing: 25kgs PP bags

Uses:

Used as food fermentation, detergent ingredient, carbondioxide foamer, pharmacy, leather, ore milling and metallurgy, detergent for wool, exting uisher and metal heat-treating, fiber and rubber industry, etc

Product Name	Sodium Bicarbonate	Batch No.: 1011226311	
	(Food Grade)		
Production Date	2010-11-22	Test date	2010-11-22
Standard	GB1887—2007	Product Standard	80 mesh
Items		Specification	Result
Total Alkalinity (As NaHCO ₃)(%)		99.0~100.5%	99.63%
Loss on Drying (%)		≤0.2 %	0.09%
PH (10g/L liquor) (%)		≤8.5	8.33
As (%)		≤0.0001%	<0.0001%
Heavy Metal (as Pb) (%)		≤0.0005%	<0.0005%
Chloride (Cl) (%)		≤0.40%	0.37%
Clarity Degree		Conform	Conform
Ammonium Salt Content		Conform	Conform
whiteness		≥85	93.8
