

Specifications

Zinc Oxide Powder 99.5%

1.Content:99%,99.5%,99.7%

2.Uses: Rubber,painting,medicine,dyeing

Description:

Zinc Oxide Powder 99.5%

· Basic Characteristics: Hexagonal crystals or a white powder,no smack

Melting point: 1975 ; Solubility: do not dissolve in water, ethanol, dissolved in acid, sodium hydroxide solution, ammonium chloride;

Density: the relative Density (water = 1) 5.606,

Stability: Stable.
